OFFER DESCRIPTION

The Department of Economics and Business at Universitat Pompeu Fabra (UPF) is advertising a job opening for a 2 full-time positions as Data Analyst. The selected candidates will join a team of researchers from UPF, the Institute of Political Economy and Governance (IPEG), and CaixaBank Research to work on a large research project aimed at monitoring and studying the evolution of wage inequality in Spain using data from bank records and other sources. The position is financed by a grant from Fundación la Caixa (project ERACOV19).

The position offers:

- A competitive salary;
- The opportunity to work in a stimulating environment and join a multi-disciplinary research team;
- Exciting research challenges and a unique opportunity to study complex phenomena in quasi-real time with rich data;
- Excellent opportunities for career building both in academia and in the banking sector;
- Supervision and guidance throughout the duration of the contract.

Responsibilities:

- Data processing: understanding the available information in multiple complex data sources, filtering it, shaping it into a suitable format for subsequent analysis;
- Data validation: performing detailed checks on the data, assessing and monitoring the data

quality in an autonomous way, although under experts' supervision and guidance;

- Interpretation of the results: visualizing the analysis output, extracting meaningful insights from the data, presenting findings to the rest of the team in a clear and precise way;
- Teamwork: cooperating with the rest of the team with a very proactive attitude, responding promptly to requests and petitions, contributing original ideas to the project.
